[REDACTED] visited 2111 Florida Avenue, "Friends meeting house" on 21 September. [REDACTED]. The purpose of the meeting was a critique of the demonstration held at the White House on 20 September 1967. The jist of the critique was that there was confusion and lack of instruction which culminated in the infraction of the police. Also they felt that the police were baffled and will not do anything to them. They are debating using cabs en masse and go to White House and get out at White House. At 12:15 a woman around [REDACTED] of age, last name [REDACTED], came to the registration desk and said she was on the mailing list but did not want to pay the registration fee but wanted all literature she could get. After she left, [REDACTED] said, "I bet she is from the CIA because we know we are being infiltrated by the CIA and we are glad because CIA is afraid of WSP."
